#### MOUNT ST. JOSEPH

# **BEHAVIORAL SCIENCE**

The mission of the Behavioral Science program is to develop graduates who value diversity and embrace the integration of life and learning. We aim to foster a learning environment in which students can understand and apply the core concepts and elements of social science. Building upon existing programs in Criminology and Criminal Justice, Psychology, and Sociology, students are prepared with a broad foundation that emphasizes the analytical and critical thinking skills needed for a broad range of professional careers. The Behavioral Science degree is highly flexible, enabling students to customize their course work in ways that align with their individual career goals and additional academic studies.
