

BIOMEDICAL SCIENCES

The Biomedical Sciences major provides you with key science courses to prepare you for a career in health care with the flexibility to design a curriculum that fits your particular interests. Concentrations include: Pre-Veterinary, Pre-Medical, Pre-Podiatry, Pre-Dentistry, Pre-Optometry, Pre-Pharmacy, Pre-Chiropractic, Pre-Physician Assistant, Pre-Physical Therapy, and Pre-Occupational Therapy. All concentrations are designed to meet requirements for professional schools in the tri-state area.

BEYOND THE CLASSROOM

HANDS-ON EXPERIENCE

Biomedical Sciences majors may engage in individualized research on campus with a faculty mentor, have opportunities for shadowing and observation, and engage in co-op positions or internship experiences in off-campus research programs. These opportunities strengthen applications to professional schools and provide valuable experiences that serve to enhance career options in the future.

FURTHER YOUR EDUCATION

Students interested in preparing for a career in health care at the graduate level are encouraged to work with their academic advisor to identify a career path that aligns with their goals.
