OHIO TEACHER EVALUATION SYSTEM
Source: Ohio Department of Education

Description of Data:
Ohio's system for evaluating teachers (Ohio's Teacher Evaluation System) provides educators with a detailed view of their performance, with a focus on specific strengths and opportunities for improvement. The system is research-based and designed to be transparent, fair, and adaptable to the specific contexts of Ohio's school districts. Furthermore, it builds on what educators know about the importance of ongoing assessment and feedback as a powerful vehicle to support improved practice. Teacher performance and student academic growth are the two key components of Ohio's evaluation system.

Limitations of the Ohio Teacher Evaluation System (OTES) Data:
1. The information in the report is for those individuals receiving their licenses with effective years of 2019 - 2023.
2. The teacher evaluation data in this report are provided by the Ohio Department of Education.
3. Due to Ohio law ORC 3333.04 (B), annual results must be masked for institutions with fewer than 10 completers with OTES data. Individual EPP data files provided by ODHE through the ODE-ODHE Data Download Project, however, lowers the masked limit to 3.
